

MATTRESS PRESS MP22

FLAT PACKS MATTRESSES IN TO A BALE

introduction

A safe, convenient and easy way to pack any type of mattresses in to a bale.

mattress press

Maximum mattress size 200 x 210cm (79" x 83") for the standard model.

Safety guiding poles around the mattresses prevent over spilling.

Maximum opening, distance between top and bottom platform, 245cm (97").

Can pack about 5 bales an hour.

The motorized screw type action provides extra safety and durability.

Can compress any type of mattresses with or without innersprings.

model MP22

operation

The mattresses are positioned at the centre of the lower platform on a strong wrapping material (polypropylene, ticking, canvas etc). Similar material is placed on top of the last mattress.

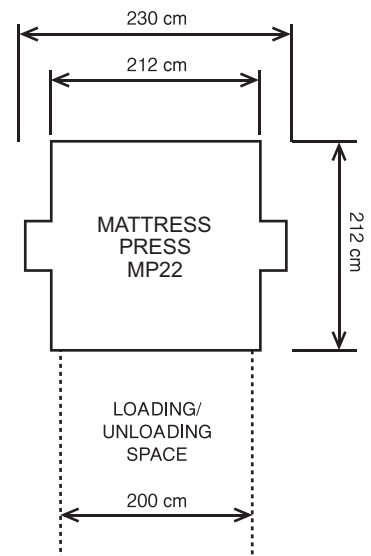

Guiding poles assist the mattresses during compression to the desired bale size. After removing the guiding poles, the 2 wrapping sheets are sewn together all around. The resulting bale can then be removed.

Power requirement: 3kW, 3-phase

Shipping Weight: 1250 kg

Dimensions: 230 x 212 x 350 cm height

Working space required
